12 October 2020

Dear Ian,

As you are aware, several Certified Locating Organisations have apparently begun to encounter difficulty with insurance renewal. We noted the advice supplied to us which I understand came from one of the insurance companies you are dealing with. It would appear that the primary concern was around Clause 4 and although Clause 5 provided some mitigation the words “and holds them harmless” still presented some difficulty.

At a meeting with Telstra held on 8<sup>th</sup> October 2020 we were advised that Telstra are prepared to accept the deletion in Clause 4 of the words “and holds them harmless”

We are of the view that this should now resolve the concerns raised. It would be appreciated if NULCA were able to confirm this.

Kind regards

Robert Row
